

General Specifications

The F2 X-TREM includes state-of-the-art features to provide unparalleled security and comfort to the wearer :

- High resistance, high temperature Polycarbonate shell with polyurethane paint, to provide optimal shock and penetration performance.
- Quick adjustment Ratchet System, for easy setting of head size while the helmet is on the head, even with a gloved hand.
- Retention system with 3 point high comfort chinstrap including chincup, and several adjustment points for optimized stability whatever head size and morphology of the wearer.
- Attachment points for additional equipment used in various types of operations : ear protection (passive or active with Cut-off system, EN352-3 compliance), face protection (mesh visor or polycarbonate clear screen), high performance lamp (Xenon or LED), full face mask.
- Retroreflective stickers (optional) to increase visibility in tough conditions, with the possibility to fully customize the helmet thanks to printed stickers.
- High performance goggles (optional) for specific eye protection against fumes, dust and high speed particles (EN166 compliance).
