

V-Gard[®] Chin Protectors

Face Protection - Technical Data Sheet

V-Gard chin protectors provide additional protection to the face and neck from impacts, chemical splash and arc flash making them suitable for applications in forestry, chemical industry, utilities, etc.

Two optional versions can be easily mounted to specific V-Gard visors versions. The retractable chin protector features unique retractable plates to allow greater flexibility of head movement, both up and down, as well as side to side. The standard chin protector is compact and lightweight.

The black material ensures safety and standards compliance with the special clear, tinted, shaded and coated V-Gard visors. In the V-Gard visor overview or visor datasheets you will find a list of certified combinations.

P/N	Description	Weight (g)	EN166 tested with V-Gard visors and frames	EAN Code	Selling Qty
10115827	Standard chin protector, 75 mm high	72	389 BT / EN1731-F	641817025796	5
10115828	Retractable chin protector, 45-75 mm high	100	389 BT / EN1731-F	641817025802	5
