

Biohazard Concerns?

Apparel made of Kappler's ProVent 10,000 fabric with ultrasonically sealed seams is one part of an effective system against blood-borne pathogen exposure. Visit kappler.com for complete technical details on ProVent test data and physical properties.

ProVent® 10,000 offers Protection Against Blood-Borne Pathogens

ProVent 10,000 is a patented microporous film composite fabric that offers a wide range of barrier protection against blood, body fluids and viral threats. It passes both ASTM F1670 blood penetration and ASTM F1671 viral penetration tests. The high moisture vapor transmission rate (MVTR) of ProVent 10,000 results in a more comfortable garment, ideal for biohazard work applications.

APPLICATIONS

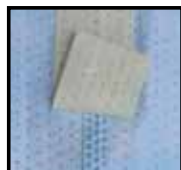

- › Patient care and other healthcare settings
- › Lab and diagnostic services
- › Pharmacy applications
- › Autopsy and mortuary services
- › Medical oncology

PROVENT 10,000 STYLE DETAILS

- › ProVent 10,000 apparel includes coveralls in a variety of styles, as well as lab coats, gowns and boots. Ultrasonic/Taped seams on select styles. Available in blue or white.

ProVent 10,000 coveralls feature a storm flap with an adhesive closure for a secure fit.

Coverall styles with sealed seams feature ultrasonic bonding plus heat sealed tape for enhanced strength.

Attached skid-resistant boots provide additional safety and protection.

Warning: This information is based on technical data that Kappler believes to be reliable. It is subject to revision as additional knowledge and experience are gained. The website will contain Kappler's most up-to-date product information, and customers who receive pamphlets, brochures or other literature should be aware that such "hard copy" information may not be as current as the information on Kappler's website. Customers also should recognize that there are uses, environments and chemicals for which Kappler products, garments and/or fabrics are unsuitable. It is the responsibility of the user to review available data and verify that the product, garment and/or fabric is appropriate for the intended use and meets all specified government and/or industry standards. Also, the customer should review all available information on the website to understand the uses – and limitations – on ALL products, garments and fabrics which Kappler makes available. **Caution:** Do not use for fire protection. Avoid open flame or intense heat.
